

MICROSHIELD® PVP Solution

Contains Povidone - Iodine I.P. 10% w/v Equivalent to 1% w/v available iodine

MICROSHIELD® PVP Solution is used undiluted for pre-surgical and post-surgical skin antisepsis and prophylactic casualty procedures against infections of burns, lacerations and abrasions.

- Broad spectrum activity against Gram +ve and Gram -ve bacteria, fungi and viruses
- Non-sensitizing
- Spreads easily and prevents wastage since it is viscous
- Clinically backed

Indications

- For pre- and post-surgical skin antisepsis
- Prophylactic casualty procedures against infections of burns, lacerations and abrasions
- Treatment of bacterial or mycotic skin infections and of mucous areas such as nasal and vaginal mucous

Instructions for use

Use undiluted. Apply directly to skin. Allow to dry prior to application of dressing, drape or cast.
